2011

EN 14351-1:2006+A1:2010

DECEUNINCK Eforte system plastic windows and french windows, intended for vertical external structures of buildings with permanent residence of people.

Resistance to wind load – Class C3
Watertightness – Class 9A
Load-bearing capacity of safety devices - ok
Acoustic performance – 32 dB
Thermal transmittance – $U_w = 0,86 \text{ W}/(\text{m}^2\text{K})$
Air permeability – Class 4
Radiation properties Solar factor: $g=0,63$
Radiation properties Light transmittance: $\tau = 0,80$
