2011

EN 14351-1:2006+A1:2010

DECEUNINCK ZENDOW system plastic windows and french windows, intended for vertical external structures of buildings with permanent residence of people.

Resistance to wind load – Class C4 (C2/B4-french windows)

Watertightness – Class E900

Load-bearing capacity of safety devices - ok

Acoustic performance – 32 dB

Thermal transmittance – $U_w = 1,4 \text{ W}/(\text{m}^2\text{K})$

Air permeability – Class 4

Radiation properties Solar factor: $g=0,63$

Radiation properties Light transmittance: $\tau = 0,80$
